

Make a wind-powered car!

Objective: Make a toy car that moves with the power of the wind.

Supplies:

4 lifesavers

4 straws

4 paperclips

Index cards

Tape

Scissors

Procedure/Activities:

- Using only 4 lifesavers, 3 straws, 4 paperclips, and as many index cards and tape as you like, design a card that moves when you blow it with the 4th straw.
